

**JAMOUS NEON**  
SINCE 1982

COMPANY PROFILE

**JAMOUS NEON**  
SINCE 1982

“ We believe in exceeding your expectations. Delivering innovative visual concepts that elevate your business and make your brand shine..”

## ABOUT US

**Jamous Neon** was founded in Beirut, Lebanon in 1982 and specializes in the design, fabrication, installation and maintenance of signage and graphic solutions crafted by skilled technicians using high-grade materials.

At the beginning, Jamous Neon started operating its business from a small workshop using crafting techniques, hand-made methods and mechanical tools and equipment.

In order to expand the business and meet the increased demand from the local market, Jamous Neon acquired a larger workshop located in Hadat-Baabda.

Over the years, it expanded its operations by implementing new tools and equipment to be able to adapt fast to the market demand and new technologies while maintaining high quality products.

Today, with our team of Engineers, Architects, Graphic designers, Sales executives and skilled technicians, we closely assist our Clients and participate in their success.

Whether for business or personal use, your design will be custom-designed for YOU.

We Light up Your Way ...

### Vision Statement:

We aim to be the leader of the signage and graphic solutions in Lebanon

### Mission Statement:

We strive to work in an effective collaboration with our Clients to assist them developing an image and brand that reflects their values.

### Company Values:
